## Broad Immunoassay Menu

The VITROS® 3600 System offers more than 40 world class Immunoassays across all the major disease states including Cardiology, Infectious Disease, Oncology, Thyroid, Metabolic, Endocrine and Anemia. We evaluate our assays constantly to ensure our menu meets your testing needs, with new ones continually in the pipeline. We use standardized reagents and results across all VITROS® platforms

## Enabling Technologies

The VITROS® 3600 Immunodiagnostic System combines three high- quality proprietary technologies into a single system that is self-monitoring, highly efficient, and easy to use:

**VITROS® MicroWell Technology** features enhanced Chemiluminescence detection which enables wide dynamic ranges with exceptional immunoassay

**VITROS® Intellicheck® Technology** delivers real-time process monitoring with fully documented traceability to minimize the risk of erroneous result reporting.

**VITROS® MicroSensor Technology** boosts efficiency and controls costs by automatically detecting and flagging endogenous interferences without compromising result turnaround or operator workflow.

## Intelligent Sample Management

The VITROS® 3600 System also offers Intelligent Sample Management, with the ability to prioritize workflow by “looking ahead” for up to 50 samples. It includes:

- Minimum sample volume requirements
- Single point of access for loading and unloading
- Dedicated STAT lane to assure fast turnaround time for urgent and critical samples

Ortho Clinical Diagnostics surrounds the purchase of the VITROS® 3600 System or any VITROS® system with world - class technical support specialists, expert field service engineers and laboratory specialists plus global hotline support in over 20 languages to ensure VITROS® fits with your laboratory.
